

Promethean ActivPanel Touch 2 65" Interactive Touchscreen LED Monitor Display - with 10 Point Multi Touch Features, Interactive Touch Technology, High Definition 1080p Optimal Resolution and ActivInspire Professional Edition Software

Interactive displays have become one of the most powerful office tools today, replacing traditional meetings and trainings with a new style of business communication that's proven to enhance meeting efficiency, training effectiveness, collaborative discussion, and team building. A winning solution for your business, the Promethean 65" ActivPanel Interactive Flat Panel combines the power of optical touch panel and multimedia connectivity to maximize your presentations. Designed with safety and flexibility in mind, the ActivPanel Touch is easy and simple to install in any office setting using a VESA wall mount.

Promethean is one of the latest ranges of interactive dual and multi touch displays, with sizes from 65" to 70". The latest touchscreen technology is integrated into the screen enabling it to be dual touch or multi touch and allowing multiple users. The crystal clear resolution and high brightness display means that images are clearly visible and unlike projection based interactive solutions, there is no shadowing.

Interactive Touchscreens are the next generation of interactive solutions for the classroom. As technology develops from the traditional blackboard to the interactive whiteboard, Interactive Touchscreen Displays takes front of class teaching to a new exciting level. The dual and multi touch screens allow students to collaborate simultaneously, encouraging cooperation and teamwork in the classroom. Interactive Touchscreens are just as versatile in the meeting room, boardroom or control centre, making presentations more interactive and meetings more creative. With dual and multi touch, more than one person can interact with the screen at the same time. High brightness and full HD display makes any content come to life including video conferencing, data and video.
